

# **You're never fully dressed without a crown.**

## **Hat sizing for big heads — actually accurate**

Most hats are built for ~57–58cm heads and shallow crowns. BigHeadz sizes for depth and circumference — room for locs, afros, and volume.

### **How to measure (60 seconds)**

1. Soft tape around your head, ½" above brows and ears.
2. Snug — one finger under the tape.
3. Measure with your usual hair volume (not slicked flat).
4. Between sizes? Size up.

### **cm · fitted · size**

- 58cm · Size 7 1/4 · S-M
- 59cm · Size 7 3/8 · M
- 60cm · Size 7 1/2 · L
- 61cm · Size 7 5/8 · XL
- 62cm · Size 7 3/4 · XXL
- 63cm · Size 7 7/8 · XXXL
- 64cm+ · Size 8+ · 4XL

### **BigHeadz fit promise**

Deep crowns · real XL–4XL · honest measurements on every crown we list. When in doubt, size up — you can adjust loose, not tight.
